Dive-Shield. Dive Safe. Dive the Dream

DIVE-SHIELD Oral- (original concept product) – 100ml pump action spray. A portable and quick treatment product; to be sprayed on a regulator or snorkel mouthpiece just prior to insertion in the mouth. Ensures a safe, bacterially inert mouthpiece. Provides peace of mind with your own or rented equipment.

DIVE-SHIELD BCD. Buoyancy compensation device treatment; 30ml sealed single-use pot. Apply after each dive event, such as a dive weekend, to protect the inner sac from mold or bacterial degradation in storage and to stay clean for next use.

DIVE-SHIELD Foam. Neoprene suit and kit cleaner; 200ml pump-action foam designed to be rubbed on to the neoprene or dive equipment to kill any bio-presence. *Bulk liquid suit wash available for dive center use.

DIVE-SHIELD Lip Balm A simple 20ml pot of fresh-flavored lip balm. Use pre and post dive. Pool or open water - it's harsh on lips and skin. Prevents chapped skin to protect from subsequent infection.

DIVE-SHIELD Nasal Spray – An amazingly effective 10ml nasal spray. This pump action product delivers anti-infective to the nasal cavity. This simple product is already used by many as a prophylactic to protect themselves throughout the year and keep themselves in top condition for diving.

The Dive-Shield product set for the dive year 2008.

Dive-Shield - Original and Best.

Dive-Shield is the first and only clinically proven antibacterial product set specially formulated for aquatic use in general and the specific needs of divers in particular.

Every Dive-Shield solution is designed to a Professional Diver standard. These quality products are now available to all. The complete package is designed to "raise the bar" on dive health safety standards, provide excellent value for money and a range of additional benefits.

Dive-Shield - Sets the safety standard and gives back to diving.

5% of all Dive-Shield Professional memberships are donated to the Aware program and 5% of all Dive-Shield Recreational memberships are donated to the National Geographic Program. Dive-Shield also operates its own "Save the reefs" program.

Global coverage - There are approaching 10,000 dive centres and resorts around the world. Consult the Dive-Shield online resource and you can check to see which are certified with the Dive-Shield antibacterial system.
